LDM-4 Standard Module

Features

- Compact size (11mm dia. x 25mm long)
- Slow start, reverse polarity and over voltage protection
- Good collimation
- Large range of options

The LDM-4 Standard Module offers a versatile and cost effective solution suited to a wide range of applications such as bore sighting, alignment, safety systems, robot control, positioning and detection.

The LDM-4 provides a well collimated laser light source, and includes provision for laser line generators and a range of other optical options to suit most requirements.

The electronics circuitry provides slow start, reverse polarity and over voltage protection and is available with a pulsing option if required. Power is connected to the module using red (+ve) and blue (-ve) flying leads. The red (+ve) lead is also connected to the modules case.

Specifications:

Available Wavelengths	635, 650, 670, 780, 808, 830 & 850nm
Available Powers	1 - 200mW
Beam Size at aperture	3mm diameter
Divergence (collimated beam)	< 0.75mrad
Operating voltage	3 - 6V DC
Operating current	30 - 300mA (Depending on laser power)

Specify part numbers as follows: **LDM-4P-650-3-L90**
(i.e. LDM-4 series, pulsed option, wavelength = 650nm, output power = 3mw, 90 deg. line generator)

Options

Collimated beam for pointing	C
100kHz Pulsed option	P
Fixed Focus	F300 (Focussed at distance of 300mm)
Variable Focus	V
Heat Protective Glass	HG
Cross Hair	CH
Line Generator	L30, L45, L60 & L90 (L30 = 30 deg. fan angle)

This product is registered with the FDA in accordance with 21 CFR 1040.10(a)(3)(I) and is compliant with European, and Australia/New Zealand laser safety standards 73/23/EEC - 98/37/EG, 89/336/EEC, EN 50081-1, EN-31252, EN-31252, EN 55022, EN 60825-1 and AS/NZS 2211:1997. The complete laser product manufacturer must supply adequate instructions for installation and servicing of this product. This is not a removable laser system. This product is designed solely as a component in an electronic product and therefore does not comply with the requirements of 21 CFR 1040.10 and 1040.11 for complete laser products. Avoid direct eye exposure to the beam.
