

## The New S-LINK Multi-Channel Monitor

**S-LINK**  
SuperLink

For Power & Energy Detectors

The S-LINK is Gentec-EO's first Multi-Channel, PC-Based, Power and Energy Monitor. Faster than any other monitor in our product range, with 10 kHz of REAL TIME data transfer for each channel, with no missing points. That's right, you get every single pulse transferred directly into your PC, at 10 000 times per second!
